ABOUT CSCP-STUDY GROUP COURSE

The CSCP Certification arms the participant with end-to-end supply chain knowledge to help and business remain competitive in today's economy. Boost confidence in supply chain management and master the skills needed to bring new ideas to suppliers, plants, and distributors while improving customer satisfaction.

The certification helps demonstrate the knowledge and organizational skills for developing more streamlined operations. Since its launch in 2006, more than 27,000 professionals in 100 countries have earned the CSCP designation.

COURSE OBJECTIVES

- Enable candidates to get knowledge about Supply Chain.
- Prepare them for International Certification of CSCP.
- Increasing professional's value in the subject field.

ACCREDITATION

This course offers two unique propositions;

- To train the participants to to appear for the final examination taken by ASCM.
- Likewise after taining participant will have the option to appear for our exam and get Interntioannly Accredited Training Certificate by Exemplar Global USA, upon exam completion.

Why CSCP Certification?

CSCP program is the first and only supply chain certification that encompasses the end-to-end global supply chain fundamentals. ASCM certified CSCP professionals gain the skills to effectively manage global supply chain activities that involve suppliers, plants, distributors, and customers located around the world. In addition to being a value adder for the

organization, earning the CSCP credential makes you a recognized expert in the supply chain field.

This professional distinction sets you apart from your colleagues, proving your high level of knowledge and skills. It makes you a more valuable asset to your organization, keeping you and your organization more competitive in today's economy.
